

Complex dynamical networks is a current topic of enormous research interest due to its relevance to many real-world systems such as brain, genetic networks, social networks. The workshop organizes meeting of eminent Russian and Indian scholars to discuss mainly about current activities in complex networks and to explore opportunities of future collaborations. The workshop also has scope for discussions on current trends of research in complex dynamical systems and their applications. Young researchers are encouraged to participate.

Speakers

G. V. Osipov, Nizhny Novogorod State University, Russia
V.I.Belykh, Nizhny Novogorod State University, Russia
E. Volkov, Levedeev Institute, Moscow, Russia
A.Loskutov, Moscow State University, Russia
A.Khramov, Saratov State University, Russia
V.Nekorkin, Russian Academy of Sciences
M.Ivanchenko, University of Leeds, UK

Abhijit Sen, IPR, Gandhinagar, India
R.E.Amritkar, PRL, Ahmedabad, India
Sitabhra Sinha, IIMSC, Chennai, India
Parongama Sen, Calcutta University, India
Nilima Gupte, IITM, Chennai
Jürgen Kurths, Postdam, Germany

Convenor: Syamal Kumar Dana
Central Instrumentation, IICB, Kolkata 700032
Phone: +91 33 2499 5852; Fax : +91 2473 5197
Mobile: 91 9433580742 (skdana@iicb.res.in)

Deadline for Application: October 30, 2009

*Interested persons may contact the Convenor immediately by email (Registration fee: Rs.500)
